

# PRODUCT INFORMATION

## Chakrol Chassis Grease

### DESCRIPTION

**Chakrol** Chassis Grease is designed for chassis lubrication of all Automotive/Industrial Equipment . It is calcium soap thickened grease having high water resistance & protection against rust/corrosion.

### PROPERTIES

**Chakrol** Chassis grease has excellent water resistance, lasting qualities in spring shackles and steering connections. It acts as protective layer on exposed parts and it clings to bearing surfaces.

### APPLICATIONS

**Chakrol** Chassis Grease recommended for Chassis, Track rollers and Idlers of certain crawler type reactors.

### SUPPLY OPTIONS

**Chakrol** Chassis Greases are packed in 180 Kgs. Mild Steel Barrels & 20 Kgs. HDPE Containers.

**SPECIFICATIONS:** Meets IS 9917 :1993 spec's

(Typical Data)

| Characteristics      | Test Method | Chakrol Chassis Grease |
|----------------------|-------------|------------------------|
| Texture              | Visual      | Smooth, Sticky         |
| Consistency @ 25 ° C | ASTM D 217  | 290 – 310              |
| Drop Point ° C       | ASTM D 566  | 90                     |

- *The above data is indicative of recent averages values only. Minor variations that do not affect product performance or quality may be expected in manufacture.*
- ***Specific requirements can be custom made on request.***
- *The above information is supplied to the best of our knowledge and belief, on the basis of the current state-of-art and our own development work. Subject to amendment.*
