

# PRODUCT INFORMATION

## Chakrol AP GREASES

### Description

**Chakrol AP Greases** are premium quality multi purpose greases based on lithium soap. It has high drop point, good thermal stability, high degree of resistance to oxidation and protection against rust/corrosion.

### Properties

**Chakrol AP greases** are versatile products with optimum shear stability, low oil separation and good rust and oxidation inhibiting properties. These greases have smooth texture and dropping point above 180 C to ensure adequate performance in a wide range of industrial and automotive applications.

- **Meets IS: 7623-1993(2001) specifications.**

### Applications

**Chakrol AP Greases** recommended for all classes of service in automotive lubrication. These greases are also suitable for lubrication of water pump bearings, machine tools, gears, couplings and universal joints and other moving parts having metal to metal contacts, under chassis lubrication of heavy duty trucks & other transport vehicles/equipment .

### Supply options

**Chakrol AP Greases** are packed in 180 Kgs. M S Barrels, 20,3,2,1 & 0.5 Kgs. HDPE Containers.

### Specifications :

( Typical Data )

Characteristics	Test Method	Chakrol AP 2	Chakrol AP3
Texture	Visual	Smooth, Homogeneous	Smooth, Homogeneous
Consistency @ 25 <sup>0</sup> C	ASTM D 217	265 - 295	220 - 250
Drop Point <sup>0</sup> C ( min.)	ASTM D 566	180	180
Free Alkalinity %/wt	ASTM D 128	0.1	0.1

- *The above data is indicative of recent averages values only. Minor variations that do not affect product performance or quality may be expected during manufacture.*
- ***Specific requirements can be custom made on request.***
- *The above information is supplied to the best of our knowledge and belief, on the basis of the current state-of-art and our own development work &.subject to amendment.*
